follow what they said, but they were so kind, so full of interest about her and her little experiences, that she soon found herself chatting freely, and laughing at Tom's funny sayings, still she rose in trepidation to find how late it had become.

Tom had not discovered his other name, but she did not take her home.

"Oh, no," gasped Myra in distress, turning to her hostess. "I'd rather take a car."

"Don't you like motors?" questioned Miss Shepherd kindly.

"I've never tried one," admitted Myra.

"Then that settles it," exclaimed Tom and Myra found herself hurried to the door, with Miss Shepherd exacting a promise that she would come again.

### How to Judge Beer

#### POINTS OF EXCELLENCE

"BRILLIANCY"—Clarity and polish, proving perfect brewing and fermentation.

"CLEAN TASTE"—The absence of a disagreeable foreign or "altertaste," proving scrupulous cleanliness during the brewing process.

"SOLID, CREAMY FOAM"—An infallible indication of body, age and excellence of brewing material.

"PURITY"—Impossible to find in most bottled beers, because their preservation is gained through chemical adulteration.

"FLAVOR"—The distinctive individual characteristic of any beverage, as peculiar to it alone as its odor to the rose. A delicious and pronounced hop aroma is the highest standard.

### A. B. C.

In the ONLY beer that possesses all of these essential qualifications, its purity is absolutely guaranteed by its makers. It is the ONLY beer that can be guaranteed, because it is the ONLY beer bottled exclusively at the brewery.
